

Large Industrial Nozzles – Stainless Steel Series

Engineered for maximum durability in sanitation environments

Built for the most demanding sanitation environments

Sani-Lav stainless steel nozzles are engineered for heavy-duty sanitation applications in food processing and industrial facilities. All stainless steel construction provides superior corrosion resistance and long service life when exposed to harsh washdown chemicals, high temperatures, and continuous cleaning.

Why choose the large stainless steel nozzles

- All stainless steel construction – maximum durability and corrosion resistance
- Ideal for food processing and high-moisture environments
- Insulated impact-resistant cover – protects hands from heat while improving grip and comfort
- Instant shut-off trigger – helps reduce water waste and improve operator safety
- Serviceable design – replacement parts available to extend product life and reduce downtime
