

Heavy-Duty Stainless Steel Pails

Designed for sanitary food processing and industrial applications.

Sani-Lav stainless steel pails are designed for durability and sanitary performance. Seamless welded stainless steel construction delivers long service life while eliminating dead spaces and rolled rims where dirt or bacteria can collect.

Why choose our stainless steel pails

- Heavy-duty Type 304 stainless steel for corrosion resistance and long service life
- Fully welded sanitary construction eliminates bacteria-trapping seams
- Smooth interior with no rolled rims for easier cleaning and improved hygiene
- Ergonomic handle models (“H”) provide controlled pouring and improved operator comfort
- USDA, FDA and NSF compliant for food processing environments

Universal Features						
Model	Capacity	Material	Top OD	Overall Depth	Ergonomic Handle	Meets/Exceeds
P13	13 Quart	Stainless Steel	12.25"	10.25"	No	FDA, USDA and NSF
P13H	13 Quart	Stainless Steel	12.25"	10.25"	Yes	FDA, USDA and NSF
P16	16 Quart	Stainless Steel	13"	12.375"	No	FDA, USDA and NSF
P16H	16 Quart	Stainless Steel	13"	12.375"	Yes	FDA, USDA and NSF
