

Scrub and Utility Sinks

Heavy-duty seamless stainless steel sinks designed to support hygiene and infection-control protocols.

Sani-Lav scrub and utility sinks are designed for hospitals, healthcare facilities, clean rooms, laboratories, and other environments where sanitation and durability are critical. Constructed from heavy-duty 14-gauge seamless stainless steel with rolled edges and corners, these scrub sinks support hands-free operation to help reduce cross-contamination and improve hygiene practices. Available in multiple configurations to meet a wide range of installation requirements.

Why choose our scrub sinks

- Trusted manufacturer of stainless steel sinks and washdown equipment since 1949
- Heavy-duty 14-gauge seamless stainless steel construction
- Hands-free operation helps reduce cross-contamination risk
- Smooth rounded corners simplify cleaning and maintenance
- Multiple activation options including knee, foot, sensor, and manual operation
- Multiple bowl and station configurations available
